

Press Release

**VII Edition of the Data Storage and Security Conferences
in Madrid
Hotel Meliá- Avenida de América
April 20th, 2010**

Madrid, 20th November 2009

The seventh edition of the conferences STORAGE & SECURITY FORUM will take place in Madrid on the 20th April.

In this occasion it will be possible to meet the majority of the key suppliers of the industry to understand their commercial and product strategy in the Spanish territory and also to deal with the challenges of the present and future IT sector.

The holding of this event in a still difficult global economic situation confirms the aim of the organizers to maintain key conferences for the country and the interest of the suppliers, focusing on the content of them.

François Vajda, organizer of the event, says: *«The last edition had confirmed that the actors, all of them positives, have clearly expressed the willing to preserve an specific event about their sector. The economic recovery is not easy for the companies but the country potential and their strategical attendance are very important».*

Next edition of **Storage& Security Forum Iberia** will be held April 20th, 2010 in the Hotel Meliá Avenida de América, Madrid.

The event proposes a complete conferences program and a Round table with topics of the following sectors: Storage, Data Security and Cloud Computing, also with special interest on SaaS applications, take a look at the program at the following site: www.iti-forum.com

The access to this demonstration of international conferences, as well as to the coffee and lunch breaks, are completely free for end-users, CEO, CIO, CFO, CTO, for the Storage and Security managers and also for the Press.
